

Internship: Strategy Projects (f/m/div)*

Job description

Infineon's strategy is being guided by global megatrends, which will continue to shape the world in the future: demographic and social change, climate change and scarce resources, urbanization and digital transformation. At Infineon's Strategy Development department our goal is to enable Infineon to navigate this increasingly complex business environment and to sustainably achieve its goals, by creating thought leadership, building strategic capabilities and facilitating long term strategic decision making. Our performance is driven by exceptional talents. As an intern you will be part of a diverse team, which integrates industry and functional expertise, a range of perspectives, capabilities and tools to spark change and create lasting impact. If you want to gain experience in the central Strategy Development department of a global technology company then this is the internship for you!

In your new role you will:

- Actively support the strategy development team on major **strategic projects on corporate and business level** as well as **operational and regular topics**
- **Collect and analyze quantitative data** as well as **qualitative information sources** to develop critical insights
- **Visualize concepts and insights for communication** towards business leaders and top management
- **Support project managers** in planning and coordinating projects
- Actively **contribute to expanding the capabilities and know-how base** of our team

Profile

You are best equipped for this task if you:

- Are studying **Business Administration, Industrial Engineering, Electrical Engineering, Physics, Computer Science** or a related field
- **Successfully completed a Bachelor degree** or equivalent at a renowned university and with outstanding academic performance
- Are available for **5-6 months**
- Combine **strategic thinking, analytical, business/financial and technical know-how** - demonstrating **interest in both technology and business strategy** is a key prerequisite
- Have **prior relevant work experience** as an intern or working student, preferably at a consulting company, financial institution or in a corporate environment
- Are a **self-driven personality** that brings an **analytical mind, future-oriented way of thinking, initiative, creativity and persistence**

Why Us

Part of your life. Part of tomorrow.

Infineon is a world leader in semiconductor solutions that make life easier, safer, and greener. Our solutions for efficient energy management, smart mobility, and secure, seamless communications link the real and the digital world.

The **Strategy Development** department influences strategic decision-making throughout the company by advising top management and business divisions, managing the overall strategy development process, and providing services in research, analysis and project management.

** The term gender in the sense of the General Equal Treatment Act (GETA) or other national legislation refers to the biological assignment to a gender group. At Infineon we are proud to embrace (gender) diversity, including female, male and diverse.*
